Chairman's Statement

Honorable Members of the General Assembly of Amman Stock Exchange

I take the pleasure to welcome all the members and I wish 2011 will be a prosperous year for all of us. We have the tradition of holding an annual meeting at this time of the year to discuss and present to you the major achievements and projects implemented in 2010, to share with you our visions and future aspirations; and listen to your opinions and proposals to serve our institution and achieve its objectives.

Dear Members of Amman Stock Exchange,

Amman Stock Exchange (ASE) has continued to implement its objectives to reach an advanced position among the region and world markets despite the repercussions of the Global Financial Crisis. We did achieve a great deal last year in terms of technology, disclosure, information dissemination, raising awareness and promotion of investment culture.

Internet Trading Service

In terms of technology, the ASE worked last year on launching several viable and significant projects such as the successful launch of the Internet Trading Service. This service has the advantage of providing the investors with the opportunity to trade regardless of their geographic location. They can monitor the trading information live and follow up the trading session proceedings moment by moment; which helps them to make the investment decisions immediately, and enter the buy or sell order using the relevant software, then the order enters the electronic trading system after the order's fulfillment of requirements gets electronically verified by the broker's systems. This service enables investors to follow up the executions of their orders and manage their investment portfolios directly and at any time.

New Website

In parallel, the ASE adopted its new website both in Arabic and English versions. This website reflects the developments witnessed by the ASE. It is based on a dynamic design, and contains comprehensive information supported with sophisticated technology used in its design to secure an easy, prompt and accurate processes for researchers and investors.

New Archiving System

The new EZ Publish archiving system was also launched last year to replace the previous archiving system - Domino.Doc. The new system is characterized by its user-friendly and multi-functional features including the ability to download documents and classify them in a better organized manner, as well as the ability to search for historical documents in an easier and faster manner compared with the previous system.

Sophisticated Infrastructure

Moreover, the ASE developed its technical infrastructure and increased investments allocated for this purpose. It equipped the new disaster recovery site in Irbid city and provided it with all technical requirements.

Disclosure and Information Dissemination

On the other hand, the ASE continued with its approach to enhance and enforce principles of disclosure and transparency. In 2010, the ASE signed a set of agreements with a number of institutions and data vendors. Accordingly, dissemination of live ASE data takes place through the market watch screens, GL screens and the ticker tape to show prices of securities traded at the ASE on the websites and satellite televised channels. Moreover, the ASE persisted in monitoring the companies and urging them to disclose their substantial information and financial data in a timely manner, while penalizing companies that did not observe the regulations.

Arab, Regional and International Cooperation

The ASE has been keen on enhancing cooperation with the Arab and international stock exchanges; it increased its visibility on the regional and international map as well as enhancing its distinct role in the international federations and organizations.

As a result, the ASE was elected as the Vice-President of the Federation of Euro-Asian Stock Exchanges. In addition, the ASE had several effective contributions to Arab, regional and international events and conferences.

Our Future Vision

The past years were full with major milestones. We are looking forward to achieve more in the future. Work results in further work; achievement calls for further achievement. We are fully inspired and hopeful to carry our delivery further with perseverance and persistence.

All of these achievements could not have been possible but with the efforts of all of those working at the Jordan capital market institutions and the cooperation of all the stakeholders of the investment process. I would like to extend special thanks to our partners at the Jordan Securities Commission, all our appreciation and gratitude for their continuous support. Let me here commend the efforts of all the staff of Amman Stock Exchange- Management and employees for their loyalty and persistent efforts during the last year and the years before.

Finally, I thank you all for responding to our invitation and coming to this gathering. We wish our beloved Jordan more prosperity and advancement under the leadership of His Majesty King Abdullah II bin Al-Hussein.

Mohammed S. Hourani
Chairman of the Board

Economic Situation

The economy of Jordan achieved a positive growth despite the impacts of the Global Financial Crisis. The preliminary indicators revealed a real growth of 3.5% in Gross Domestic Product (GDP) at constant prices during the third quarter of 2010 compared with the same period of 2009. Most of the economic activities marked varied real growth during the third quarter of 2010 as compared to the same quarter of 2009. The economic activities with the highest growth were Quarrying with 78.4%, Agriculture with 9.1%, Wholesale & Retail Trade, Restaurants & Hotels with 5.5%, and Producers of Government Services and Electricity & Water with 4.8%. In contrast, the Constructions and Taxes declined by 4.6% and 3.1% respectively. However, the real growth rate for the year 2009 reached 2.3%. In the meantime, the Consumer Price Index (CPI) increased by 5.0% during the year 2010, compared with a decrease of 0.7% in 2009.

As for the monetary policy indicators, The Central Bank of Jordan (CBJ) lowered the re-discount rate from 4.75% by the end of 2009 to 4.25% by the end of November of 2010. Interest rates on Treasury Bills for six months declined to 2.3% by the end of November of 2010 compared with 2.8% at the end of 2009; and the weighted average interest rates on credit facilities extended in the form of loans and advances decreased by the end of November of 2010 to 8.9% compared with 9.1% at the end of 2009. Liquidity as measured by money supply (M2) grew at the end of November of 2010 by 9.5% compared with 2009. On the other hand, foreign currency reserves at the CBJ reached JD8522.8 million by the end of November of 2010 compared with JD7713.3 million in 2009; an increase of 10.5%.

With regard to the performance of public finance, the figures showed an increase in total public revenues and external grants of 3.2% for the first ten months of 2010 compared with the same period of 2009. Total public expenditures for the first ten months of 2010 marked a decrease of 2.6% compared with the same period of 2009. Hence, fiscal deficit after grants amounted to JD655.1 million for the period mentioned above compared with JD890.3 million for the same period of 2009.

Foreign trade figures issued by the Department of Statistics indicate an increase in the volume of foreign trade in 2010 compared with 2009. The Jordanian exports (national exports and re-exports) increased by 8.1% for the first ten months of 2010 compared with the same period of 2009. Imports increased by 9.5% for the first ten months of 2010 compared with the same period of 2009; as a result, the deficit in the Balance of Trade increased by 10.7% as compared with the same span of 2009.

As for the outstanding public debt, the central government net domestic debt reached JD6957 million by the end of October 2010 against JD5791 million by the end of 2009. The outstanding external public debt reached JD4033 million by the end of October 2010 against JD3869 million by the end of 2009.

Arab and International Stock Exchanges

Arab Stock Exchanges

A number of Arab stock exchanges witnessed a positive performance by the end of the year 2010. The Arab Monetary Fund composite index for Arab stock exchanges denominated in USD increased by 7.1% during 2010. Available figures of price indices of Arab stock exchanges denominated in local currencies showed that the price index of Qatar Exchange witnessed an increase of 24.8% as compared with 2009 closing; it was the best among the Arab markets. Casablanca Stock Exchange ranked the second with a 21.2% increase; followed by Tunis Stock Exchange with an increase of 18.4%. Shares prices at the Egyptian Exchange increased by 15% putting it in the fourth rank. The price indices for the Saudi Stock Market, Muscat Securities Market increased by 8.2% and 6.1% respectively. However, the price indices in Palestine Exchange, Kuwait Stock Exchange, Abu Dhabi Securities Exchange, Bahrain Bourse, Amman Stock Exchange and Dubai Financial Market declined by 0.7%, 0.7%, 0.9%, 1.8%, 6.3% and 9.6%, respectively as compared with the end of 2009, figure No. (1)

Figure No. (1)
Arab Stock Exchanges Performance in 2010

Despite the improved performance in some Arab stock exchanges during 2010, most of the Arab stock markets have declined by varying degrees since the beginning of the global financial crisis till the end of 2010, where the index of the Amman Stock Exchange during that period decreased by 35.4%, whereas the price indices of the markets of Dubai, Bahrain, Kuwait, Saudi Arabia and Abu Dhabi declined at higher rates than Amman Stock Exchange during the same period, the performance of these markets declined by 72.5%, 48%, 44.6%, 40.8% and 40.3% respectively, figure No. (2), Table (1).

Dubai Financial Market	-72.42	10.22	-9.60	-72.51

Figures issued by the Arab Monetary Fund revealed that the market capitalization of the Arab stock exchanges increased to USD988.5 billion or by 11.4% at the end of 2010 against USD887.1 billion by the end of 2009. The Saudi Stock Market came first in terms of the market capitalization compared with other Arab markets as its market capitalization amounted to USD353.4 billion or 35.8% of the total market capitalization of the Arab stock exchanges by the end of 2010. Kuwait Stock Exchange ranked second with 12.6% of total market capitalization of Arab stock exchanges with a market value of USD124.9 billion, figure No. (3).

Figure No. (3)
Market Capitalization of the Arab Stock Exchanges, 2010

World and Emerging Markets

The price indices of most world stock exchanges increased in 2010. Figures available reveal improvement in stock exchanges all over the world; MSCI AC World Index calculated by Morgan Stanley to all stock exchanges worldwide (developed and emerging) increased by 10.4% in 2010 as compared with 2009. The market capitalization of stock exchanges members in the World Federation of Exchanges (WFE) increased by more than USD6 trillion or by 12.8% compared with the end of 2009.

MSCI World Index for developed markets increased by 9.6% in 2010 against 2009. US stocks prices increased in 2010 compared with 2009; with the Nasdaq composite index, S&P500 index, and Dow Jones Industrial Average index, all marking an increase by 16.9%, 12.8%, and 11% respectively compared with 2009.

Most stock exchanges in Europe and Asia also witnessed an improvement in their performance whereby the Xetra DAX of Frankfurt Stock Exchange increased by 16.1%, FTSE100 index of London Stock Exchange increased by 9%, and the Hang Seng index for Hong Kong Stock Exchange increased by 5.3%. Whereas, Paris Stock Exchange dropped by 3.3% according to CAC40 index, and the stock price index for Tokyo Stock Exchange decreased by 3% according to NIKKEI225 index, figure No. (4).

Figure No. (4)
Performance of Some World Stock Exchanges, 2010

As for Emerging Markets, they marked a positive performance in 2010 according to MSCI EFM Index for Emerging and Frontier Markets which increased by 16.5%. Price indices calculated by Morgan Stanley showed an increase in the performance of most of emerging markets during 2010. The Indices of Thailand, Malaysia, Indonesia, South Africa, India, Turkey, Russia, Brazil, and China, valued in USD, increased in 2010 by 50.8%, 32.5%, 31.2%, 30.7%, 19.4%, 18.4%, 17.2%, 3.8% and 2.3% respectively, figure No. (5)

Performance of Amman Stock Exchange in 2010

First: Secondary Market

Value of trading at the secondary market including the first and second markets, the right issues market, the bonds market and the transactions excluded from trading amounted to JD6832 million by the end of 2010 compared with JD9886 million for 2009 with a decrease of 30.9%. The value of stocks traded through the first and second markets made up 97.9% of the total trading value at the secondary market.

The following outlines the secondary market activity during 2010:

A. First and Second Markets

Shares of 236 companies were traded in 2010 with 73 companies shares marking an increase and shares of 160 companies decreasing and 3 companies shares remaining stable. As for the performance of the first and second markets, the trading value decreased by 30.8% during 2010 compared with 2009, figure No. (6), also the number of executed transactions decreased by 36.6%, while the number of traded shares in 2010 increased by 16% compared with 2009.

Figure No. (6)
Trading Value at The ASE

The Sectoral distribution of trading value and number of traded shares showed that the financial sector ranked first in terms of trading volume and number of traded shares, followed by the services sector, and the industrial sector, figure No. (7). It is worth mentioning that the trading in the sectors of real estate, diversified financial services, commercial services, banks, and transportation, made up 24.9%, 23.3%, 15.5%, 10.7%, and 5.1%, respectively of the total trading value.

Figure No. (7)
Trading Value at the ASE by Sector, 2010

Daily trading averages showed a decrease in the daily average trading value to JD26.8 million against JD38.8 million in 2009, a decrease of 31.0%.

In terms of turnover ratio, the financial sector ranked first with 117.6% followed by the services sector with 79.7%, and the industrial sector with a 76.7%. Overall, the turnover ratio at the ASE during 2010 was 102.2%.

B. Shares Price Indices:

The price index, weighted by market capitalization of free float shares, decreased by 6.3% in 2010 reaching 2374 points, and the price index weighted by market capitalization stood at 5318 points by the end of 2010 a decrease of 3.7%.

At the sector level, the financial sector index dropped by 3.8% compared with 2009 due to the decrease of all sub-sector indices except the banks sector. The real estate sector which affected the financial sector index of more than 12%; declined by 25.3%. The diversified financial services sector which represented more than 12.5% of the financial sector index decreased by 22.5% during the year 2010, the banks sector increased by 7.7% which affected the financial sector index of more than 69%. The services sector index decreased by 10.0% due to the decrease of most sub-sector indices especially the 7.9% decrease in the utilities and energy sector index, this sector contributes to more than 37% of the services sector index. Moreover, the industrial sector index decreased by 5.9% due to the decrease in the mining and extraction industries sector by 8.2%, representing more than 50% of the industrial sector decrease, figure No. (9).

The tobacco and cigarettes, health care services, banks, pharmaceutical and medical industries sectors were rising sectors during the year 2010 where these sectors rose by 28.7%, 15.6%, 7.7% and 3.6% respectively, figure No. (8). While the commercial services, paper and cardboard industries, real estate, glass and ceramic industries and electric industries sectors, were the biggest losers, those sectors declined by 35.4%, 32.2%, 25.3%, 24.9% and 24.3% respectively, figure No.(8).

Figure No.(8)
Decrease Percentage of Sub Sectors in 2010

Figure No. (9)
Price Index Weighted by Market Capitalization of Free Float Shares
(Closing of 1999=1000)

As a result of the decline in shares prices, the market capitalization of listed companies dropped by 3.0% at the end of 2010 representing 122.7% of GDP, Table No. (2), figure No. (10).

Table No. (2)
Market Capitalization of Listed Companies By Sector

(JD Million)

Year	Financial	Services	Industry	Total
2006	14670	2883	3526	21079
2007	18922	4091	6202	29215
2008	15501	3630	6276	25407
2009	12559	3877	6091	22527
2010	11742	3735	6381	21858

Figure No. (10)
Market Capitalization of the ASE and its Percentage to the GDP

C. Bonds Market

Value of bonds traded during the year amounted to JD0.14 million with a decrease of 94.5% compared with 2009, the number of traded bonds was 0.14 thousand with a decrease of 81.6% compared with 2009.

D. Right Issues Market

The trading value of right issues during this year amounted to JD40 thousands with a decrease of 83% compared with 2009, the number of right issues traded declined to 115 thousand with a decrease of 97% compared with 2009.

F. Transactions Excluded from Trading

Data issued by the SDC showed that the amount of transactions excluded from the trading system decreased in 2010. These transactions included inheritance and family transfers, companies excluded from trading, and other transactions. Transactions excluded from trading counted for JD142.1 million in 2010 compared with JD218.0 million in 2009. The number of shares transferred during 2010 counted for 45.4 million shares compared with 73.2 million shares in 2009.

Second: Non-Jordanian Investment

Total value of shares purchased by non-Jordanian investors in 2010 amounted to JD1036.6 million representing 15.5% of the total trading value. The value of shares sold by non-Jordanian investors amounted to JD1051.2 million, resulted in a decrease of non-Jordanian net investment by JD14.6 million during 2010, compared with a decrease of JD3.8 million in 2009.

By the end of 2010, non-Jordanian ownership in listed companies formed 49.6% of the total market capitalization of the ASE, figure No. (11).

The Saudi investments at the ASE ranked the first among non-Jordanian investments according to figures issued by the SDC. These investments reached about JD1.4 billion by the end of 2010, this figure constitutes 6.4% of the market capitalization of the ASE, Kuwaiti investments ranked second with a percentage of 5.9%, followed by the American investments 5.2%, the Lebanese investments 4.3% and the Qatari investments 4.2%.

Figure No. (11)
Non-Jordanian Ownership in Listed Companies

Third: Listing at the ASE:

The number of listed companies at ASE rose in 2010 reaching 277 companies against 272 companies by the end of 2009. Companies listed at the first market counted for 112 companies, and 165 companies listed at the second market. Capitals of listed companies at the ASE increased to JD7.0 billion at the end of 2010 in comparison with JD6.7 billion at the end of 2009, due to the listing of the shares of 5 new companies at the ASE and the increase in companies' capitals which came by different means.

A- The new securities listed at the ASE during the year 2010:

1. Shares:

In 2010, the ASE listed 5 new companies with a capital of 41.0 million shares, the following table shows the names and capitals of these companies:

No.	Companys' Name	Symbol	Listing date	Capital
1	Ubour Logistic	TRUK	02/03/2010	3,000,000
2	Philadelphia Pharmaceuticals	PHIL	19/05/2010	2,000,000
3	Ibn Al Haytham Hospital	IBNH	27/05/2010	20,000,000
4	Al Daman For Investments	DMAN	27/10/2010	10,000,000
5	Shira Real Estate Development And Investment	SHRA	02/11/2010	6,000,000

2. Right Issues:

The ASE listed 3 right issues with a total number of 8.9 million rights, the following table shows the right issues that were listed during the year 2010:

No.	Right Name	Symbol	No. of Rights
1	ARAI RIGHT ISSUES 01	R0072	2,555,203
2	RUMM RIGHT ISSUES 01	R0073	1,000,000
3	RUMM RIGHT ISSUES 02	R0074	5,300,000

3. Bonds and Treasury Bills:

The ASE listed 55 issues of Government treasury bonds during the year 2010 with a value of JD2889.8 million, also it listed 11 issues of public institutions bonds and bills with a value of JD263 million, besides, the ASE listed 27 issues of treasury bills with a value of JD1572.5 million, and one issue of corporate bonds issued by the Arab International Hotels Company with a value of JD10 million.

B- The companies which raised their capitals during 2010:

6 companies rose their capital through private subscription, where the total number of shares increased was 15,293,712 shares. Ten listed companies increased their capital through strategic partners, this increased the number of shares by 140,427,733 shares. 20 of listed companies increased their capital by offering 96,632,471 shares as stock dividends to shareholders. Finally, one company increased its capital by 1,503,370 shares through public offering.

C- The companies which were transferred from the first market to the second market and vice versa:

12 companies were transferred from the second market to the first market, these companies are:

United Cable Industries, Arab International Hotels, First Insurance, Rum Group for Transportation and Tourism Investment, Jordan Industrial Resources, High Performance Real Estate Investments, Resources for Development and Investment, Al Jamil for Investments, Offtec Holding Group, Jordan Clothing, Intermediate Petrochemicals Industries and Middle East Insurance.

Also 19 companies were transferred from the first market to the second market, these companies are:

Al Zarqa Educational and Investment, Union Advanced Industries, Jordan Kuwait Bank, General Mining, Invest Bank, Jordan National Shipping Lines, Petra Education, The Jordan Worsted Mills, National Insurance, Travertine, The Arab International for Education and Investment, Universal Chemical Industries, Hayat Pharmaceutical Manufacturing, International for Medical Investment, Jordan Paper and Cardboard Factories, Al-Bilad Securities and Investment, Real Estate Development, The Holy Land Insurance and The United Insurance.

Forth: Primary Market

The value of issues at the primary market including stocks and bonds reached JD5122.8 million for 2010 with an increase of 6.8% compared with 2009. The increase in the value of bonds issues came as a result of the increase in domestic public debt of the government during the year 2010 with a total value of JD4641.3 million. The value of treasury bills issued amounted to JD1651.5 million where the value of treasury bonds issued was JD2989.8 million in 2010. Water Authority also issued bonds for JD159.5 million during 2010, Housing and Urban Development Corporation issued bills for JD109 million and finally, the value of corporate bonds issued in 2010 was JD93.8 million.

As for the Initial Public Offerings (IPO) of shares; only one new public shareholding company was registered in 2010 with a capital of JD10 million, 3 companies were transformed to public shareholding companies with a capital of JD13.2 million. Other 33 listed companies have raised their capitals by 119.8 million shares amounting to JD96.1 million.

Fifth: Membership of the Amman Stock Exchange

No new members joined the ASE in year 2010, which keeps the number of the ASE members to 68 companies by the end of 2010, while the number of operating brokerage firms was 61 companies at the end of 2010. It's worth to be mentioned that the membership of Al Reda for Financial Services Company and Shares House for Financial Securities Company has been revoked in ASE during the year 2010.

Sixth: Dispute Resolution

The ASE received (15) arbitration requests in 2010 to resolve the disputes between members of the ASE and their clients in accordance with the Disputes Resolution Directives at the ASE for 2004. One of the advantages of resolving the disputes in the ASE according to the Dispute Resolution Directives is speedy action in cases raised to arbitration.

ASE Achievements in 2010

First: Legislative Updates

In pursuit of Amman Stock Exchange's approach to review the legislations in force, in 2010 some amendments were introduced to bylaws, regulations, and procedures adopted in the ASE. Some articles in the Listing Securities Directives in the ASE were amended. The regulatory procedures of the securities sales in response to official decisions were also amended, in addition to some other amendments.

Second: Technical Developments

1- Launching the Internet Trading Service

The ASE has launched the Internet Trading service during 2010, which comes as a part of the ASE's efforts aiming at achieving its objectives to develop trading methods and expand the investors' base. This service is seen as a major opportunity for a large number of investors and interested parties to trade in securities, regardless of their geographic location. The service will help increase the number of those trading at the ASE and enhance their aptitude to engage in securities trading.

The Jordan Securities Commission (JSC) has approved the Internet Trading Directives which come to regulate all issues related to the Internet Trading service. These directives emphasized that a brokerage firm, interested in activating the Internet Trading service, has to obtain a written approval from the ASE and an endorsement from the JSC on its request, and to sign an Internet Trading agreement with the client wishing to make use of this service. Such agreement must cover all the organizational issues for both parties including a disclosure statement highlighting the risks of using the service so that the investors will be aware of the risks of this service which can come from using the internet or misusing the new service. Moreover, the agreement emphasizes on the investors' commitment to observe and comply with the provisions of the Securities Law and bylaws, regulations and directives issued pursuant thereto; investors must take full legal responsibility for any violations they make as well as the responsibility for entering, modifying or cancelling orders while using the service.

As for the privileges of using Internet Trading, by using the service properly, trying to avoid risks of the service and following the guidelines of the brokerage firm; the service will provide a great benefit as it enables the investors to watch the trading information live and follow up the trading session proceedings and make the investment decisions immediately making use of the investment opportunities once they are available, since this service does not require the client's presence at the brokerage firm premises; nor to make a phone call with them, the clients just need to enter the buy or sell order through the software used for the service, then the order enters the electronic trading system, after the order's fulfillment of requirements gets electronically verified by the broker's systems. It is worth mentioning that this service enables investors to follow up the execution of their orders and to manage their investment portfolios directly and at any time.

In this regard, four brokerage firms started providing this service to their customers in 2010, within the first phase. The number of shares traded through this service since the service was launched in July 2010 until the end of 2010 reached 8,902,186 shares, with a trading value of JD 5,673,824 executed through 6,319 transactions.

Moreover, the Internet Trading service will be applied at many other brokerage firms after the verification of their readiness, according to the laws and regulations.

2- Adopting the New Website of the ASE

The ASE has adopted its new website both in English and Arabic versions. The New Website reflects the developments witnessed by the ASE and is based on a dynamic design and an advanced technology. The advanced technology used in the new website provides an easy use for users and investors, in addition to the swift and smooth access to data through advanced search, this method enables the user to search for any data related to the ASE, trading data and companies' information.

Through the new website; users can obtain live trading data, as well as, daily, weekly, monthly and annual bulletins. Moreover, users will be able to customize the trading bulletins for any period they may need, watch the top gainers companies and the top losers live during the trading session, they can also personalize the data by creating their own windows named "My Watch List" by which the users can select a group of companies and watch all data related to them, such as live trading data, bulletins,

disclosures and charts, through their own window and retrieve such information each time they visit the website. The new website also provides historical information for main and sub-sectors in the form of tables to enable analysts and researchers to analyze the data as they may need.

Through the new website, companies' information, bulletins, circulars and disclosures related to listed companies are available since 2001. The website also contains data related to Jordan Capital Market, aspects of investment and milestones. Charts are also developed and reviewed based on historical data and for different periods due to the advanced technology used in designing these charts.

A new feature in the new website named "Stock Screener" has been added. The Stock Screener enables users to filter companies and classify them according to certain criteria. For example, a user can filter companies whose capitals are more or less than a specific level or within a certain range. There are also a number of criteria by which the user can filter companies, such as total assets and price to earnings ratio.

3- New Archiving System for the ASE

In 2010, the new EZ Publish was operationalized to replace the old Domino.Doc system. The new system is unique for its user-friendly and multi-functional features including document uploading and classification in a better organized manner. It also helps the user to search for historical documents easily and promptly. The infrastructure for the new archiving system was established in a manner to secure a high competence and capacity for the system.

4- Disaster Recovery Site in Irbid

In coordination with New York Stock Exchange- NYSE Euronext, the ASE equipped the new disaster recovery site in Irbid city. This site is used to keep backups of the daily trading files after each trading session. It can be used to secure continuity for the trading session in emergency cases when those sessions could not be implemented in the headquarters.

5- Installation of a Power Generator and Power Distribution Unit at the Housing Bank Complex

In line with the persistent efforts of the ASE to develop and upgrade the technological and technical structure used in the Stock Exchange, works were completed to refurbish the infrastructure related to the electric equipment and an uninterrupted operation in case of a power supply interruption at the Housing Bank Complex site. A new power generator was installed in addition to a new power distribution unit on that site. It is worth mentioning here that those new equipments are subjected to remote monitoring and control, thus there is no need to be present at the site.

6- Development of the Management Information System

The Management Information System (MIS) was upgraded from Oracle Developer 6i which is a desktop version to Oracle Developer 10g which operates the said system using the internet browser. MIS was developed by modifying some of the procedures applied in it and introducing new procedures. Several screens and reports were added concurrently with the launch of the OMS Internet Trading. Several new screens and procedures were developed in order to provide the new website with files and data required to build up reports and information in the new website. Multiple new screens and reports related to the Companies' Guide were introduced.

7- Completion of Designs for the Infrastructure of the Jordan National Financial Center

The ASE reviewed the designs of the Information and Communication Technology Network and the infrastructure requirements including power supply, monitoring and control systems at the Jordan National Financial Center. The fiber optics technology will be used for the new network of the financial center thereby becoming the first integrated center in Jordan to use the Fiber to the Desk technology; which is a quantum jump compared with the copper cables used at present. This technology is distinct for the feature of installing cables for distances up to 550 meters and high speeds. Thus, the equipment installed for the network will be fewer and can be centrally installed instead of being distributed at several floors.

With regard to monitoring devices, specifications were set in order to secure an electronic control of all the electrical and other devices installed there in addition to cameras and gates through a designated network. There is a control system that secures an effective management and monitoring for these systems.

8- Use of Multiprotocol Label Switching (MPLS- a modern technology to interconnect with brokers)

In pursuance of a continuous development and introducing the state of art communication technologies, the ASE cooperated with the Telecom Operators who provide fiber optics interconnectivity and the wireless Microwave mechanisms to interconnect the brokerage firms outside the Housing Bank, wishing to replace their lines with the multiprotocol label switching (MPLS) with the ASE. This technology is unique for its efficiency, high capacities and low cost compared with the old lines. Thus, it is possible now for the broker firms outside the complex to interconnect with the ASE directly or via the Housing Bank using the above mentioned MPLS.

9- Updating the Ticker Tape of Jordan TV

A new Ticker Tape has been introduced to be displayed on Jordan TV to show the latest prices of stocks traded at the ASE.

10- Electronic Monitoring of Brokers' Orders

In order to improve and accelerate the inspection process on member broker firms in the ASE, a program was introduced to inspect the orders processed in the systems of brokers to reconcile them with the orders implemented in the Management Information System (MIS) to ensure they are in line with the duly observed practices and principles of transparency and equity of the Capital Market.

Third: Disclosure and Data Dissemination

In 2010, the ASE implemented the following with regard to disclosure and data dissemination:

- Signing (3) Data Dissemination Agreements with data vendors. The aim of such agreements is to disseminate the ASE's data using market watch screens. Thus, the agreements signed for this purpose count for 30 agreements at present.
- Signing one Live Market Data Agreement which aims to disseminate live market data through GL screens. Thus, such agreements count now for (11).
- Signing (6) Ticker Tape Agreements to disseminate live stock prices through the ASE's ticker tape on other websites. Thus, the agreements signed for this purpose count now for (92). One agreement was also signed for live dissemination of prices of traded securities using a ticker tape on satellite channels. Thus, agreements in this domain count now for (3).
- Amman Stock Exchange published the Companies' Guide for 2010; the directory includes general information on public shareholding companies listed at the ASE and those not listed, such information includes addresses of the companies, names of their auditors and legal advisors as well as the number of their staff. This Guide also includes the financial information of the shareholding companies, namely the balance sheet, income statement, and the cash flow statement for the years 2006 to 2009. It is worth mentioning here that efforts were furthered by the ASE to develop services and information provided for investors, scholars and the public in general. The financial information templates used in the Companies Guide for the financial sector were rebuilt in order to cope with the developments taking place in the financial reports of those sectors, and to display such information in a clearer format. Also a new template for the Islamic Insurance companies was prepared for the Companies Guide.

Fourth: Awareness and Media

1. The ASE and the University of Jordan inaugurated a Stock Exchange Simulation Room in the faculty of Business Administration at the University of Jordan. Both parties also signed an academic cooperation agreement aiming at creating the simulation room and training the university staff on using the ASE's electronic trading system. The simulation room is intended to train students on trading securities and the exchange's operations, in addition to conducting researches and studies on the exchange by professors and the staff members. In this regard, a designated hall in the university has been equipped with computers to run the trading system, and the hall has been connected directly to the ASE.

On this occasion, the ASE held an academic day where a live trading session was broadcast in the university and inquiries and questions of students were answered. Holding such events goes in line with the ASE's policy of strengthening its ties with the local community and spreading the investment culture and raising awareness among citizens and investors.

2. The ASE participated in a lecture entitled "Stock Exchanges Cases" during the course program "Investigation in Investment Cases" held by the Preventive Security Department of the Public Security Directorate. The lecture discussed many important subjects regarding the Jordan Capital Market and securities trading, in addition to a glimpse on the main concepts related to the capital market including stocks, bonds, mutual funds, right issues and corporate governance. The Global Financial Crisis was also discussed in the lecture, in addition to the extent to which it affected the Jordanian economy.

Fifth: Local, Arab and International Presence

On the local Level:

- The ASE participated in a workshop for training reporters, held by the International Finance Corporation (IFC), a member of the World Bank Group, and Thomson Reuters Corporation about topics related to corporate governance to increase the abilities of reporters to cover the proper practices of corporate governance. This workshop represents part of the efforts of the Global Forum for Corporate Governance which follows the International Finance Corporation (IFC), the workshop aimed at improving corporate governance practices that would activate and strengthen the ability of companies and help them to expand and create more job opportunities.
- The ASE participated in the Sixth Conference of Businessmen and Expatriate Jordanian investors which was organized by the Jordanian Businessmen Association and the Jordan Investment Board in cooperation with the Ministry of Foreign Affairs. The ASE gave a presentation entitled “Amman Stock Exchange and Current Challenges”, which discussed the importance of investing in the ASE and its role in fostering savings and investment. It also emphasized on the Internet Trading service which was launched lately by the ASE and the importance of this service which is seen as a major opportunity for the investors to follow up and manage their investments easily. In addition, the presentation addressed the challenges facing the ASE, represented by the intense continuous fluctuations of the global markets and encountering the effects of the global financial crisis.
- The ASE participated in the Business and Finance First Forum and Exhibition entitled “Jordan Capital 2010” and organized by Jordanian United Company which was held in the Association of Banks. The ASE delivered a presentation entitled “The Impact of the Global Financial Crisis on the ASE”. The presentation handled the importance of investing in the ASE and its role in fostering savings and investment, besides the challenges facing the ASE.

- The ASE participated in the Fourth Enforcement and Market Oversight Training Program which was held by the Jordan Securities Commission (JSC) in cooperation with the United States Securities and Exchange Commission (SEC) in the JSC premises. The training program included an extensive presentation of the experiences of developed countries such as Inspection of brokerage services and risk assessment; it also included studying the impact of the global financial crisis on emerging markets and fostering knowledge of the disclosure, registration, issuance and settlement.
- The ASE, in addition to a number of ministries, government departments and independent institutions, participated in a workshop entitled “Strategic Planning on the Sectoral Level”, held by the Ministry of Planning and International Cooperation with the aim of creating a common language between the participating parties in order to better implement the Executive Development Program.
- The ASE participated in a course entitled “Financial Investments Management”, which was held in the Jordan Capital Market building. The course was organized by the JSC, in cooperation with the Arab Planning Institute in Kuwait and the Jordanian Ministry of Planning and International Cooperation.

Delegations Received

- The ASE received in its premises a number of Arab and international delegations. In this respect, the ASE received a delegation from Abu Dhabi Investment Company, a Libyan delegation from the banking sector, a British Parliamentary delegation, the European Union envoy for the committee in charge of studying the establishment of a Euro-Mediterranean development bank and a senior financial consultant from Wells Fargo Investments / California.

- The ASE received the financial Attaché and the representative of the Central Bank of Italy. During the meetings, recent developments in financial markets in Jordan and some EU countries were discussed; and the cooperation between the ASE and the Borsa Italiana was reviewed.

- The ASE also received a number of local delegations. It received a delegation from the Companies Control Department from the Ministry of Industry and Trade, a military delegation from the Royal National Defense College and a military delegation from the Royal Air Defense School.

- The ASE also received a number of student delegations from local universities. It received a delegation of students from Philadelphia University, Ajloun College, Maan College and the Intermediate University Collage, besides a delegation of students from the Islamic Scientific College and Um Umara School. The ASE also received delegations of students from international universities, namely the University of Rotman / Canada and Leiden University / Netherlands. The delegations were briefed about the nature of work at the ASE and the latest legislative and technical developments at the Jordan Capital Market, they were also introduced to the operations of the ASE and the financial services firms. They were also accompanied to the Investors Gallery and the various facilities of the ASE.

On the Arab Level, the ASE participated in:

- The First International Conference For Investment and Finance, which was held in Latakia. The conference tackled the performance of the Arab and the international capital markets during the crisis. Moreover, the ASE delineated in a presentation, how the Jordan capital market institutions handled the crisis through enhancing transparency and disclosure, and enhancing the margin accounts control and by abiding to the laws and rules that protect the market and the investors.

- The First Economic Forum which was held in Damascus. The ASE presented a number of awareness lectures in the field of fundamental and technical analysis and investment funds. On the margins of the conference, the ASE had a special section in which it presented the opportunities and the mechanism of investment in the ASE and gave a brief on the recent developments of the ASE at the legislative and technical aspects.
- The Conference of the Middle East and North Africa (MENA) Stock Exchanges held by the Financial Information Services Division (FISD) which is affiliated with the Software and Information Industry Association (SIIA) in Dubai. During the Conference, the ASE presented its experience in terms of information dissemination and the major technological developments that the ASE has recently marked. Several topics were discussed in the Conference; namely discussion of the information dissemination policies by the region's stock exchanges and the importance of standardizing them to serve the interests of these stock exchanges. Moreover, the major challenges and difficulties facing the information dissemination industry whether by stock exchanges or data providers were discussed. In addition, the Conference raised the point of importance of providing the possible methods to assist stock exchanges of the region with an eye on the international stock exchanges experience.
- The "Trust Restoration in Arab and Middle Eastern Capital Markets" Conference, which was organized by the International Forum for Investor Education (IFIE) - MENA Subcommittee in Cairo. The conference aimed at making strategies and mutual plans for educating investors, in addition to attracting new investors in the MENA region. The ASE introduced its experience in raising awareness among investors and the marketing programs held on the local and international levels.
- The UAE Securities & Commodities Authority ceremony in the United Arab Emirates on the occasion of its tenth anniversary celebrations.

On the International Level:

- The ASE hosted the meetings of the Working Committee and the Executive Committee of the Federation of Euro-Asian Stock Exchanges FEAS. Through the sessions of the working Committee, which were chaired by the ASE, many important issues were discussed, namely, the Draft Agenda of the Federation for 2010 and 2011, the reports submitted by the federation's task forces. Also the ASE participated in the Executive Committee meeting, which discussed the proposed amendments of the FEAS Charter, the 5-year Strategic Plan for the Federation, the Working Committee suggestions for the Federation's agenda, Draft Budget for the year 2011 and the estimated dues on members.

- The ASE hosted the celebrations of the Federation of Euro-Asian Stock Exchanges FEAS fifteenth anniversary during the FEAS Working Committee and 20th Executive Committee meetings held in Jordan.
- The ASE participated in the 50th General Assembly meetings of the World Federation of Exchanges (WFE) which were held in Paris and coincided with the federation's fiftieth anniversary. Several important issues were discussed during the meetings related to the strategies and trends of the exchange industry, clearing, OTC Derivatives and transparency. The meetings also tackled global reporting standards for global markets and the admission of the membership of Bourse de Casablanca.

- The ASE also participated in the fourth meeting for the exchanges of the Organization of Islamic Conference (OIC), which was held in Istanbul and organized by the Istanbul Stock Exchange. During the meeting Standard and Poors Company has been selected to work on the composition and calculation of an index of the member exchanges in the OIC. The meeting also discussed the possibility of developing the Islamic Sukuk Market besides other tradable Islamic financial instruments and discussed the cooperation with data vendors.

- The ASE participated in the meetings of the Working Committee, Executive Committee and the General Assembly of the Federation of Euro-Asian Stock Exchanges (FEAS) which was held in Istanbul. The Working Committee meeting was chaired by the ASE, where many important issues were discussed. Also during the meeting of the General Assembly, the ASE was elected as Vice President of the Federation, the Istanbul Stock Exchange as the president of the Federation and Tehran Stock Exchange as the Chairman of the Working Committee. In addition, the Vice-Chairman of the Istanbul Stock Exchange has been appointed as General Secretary of the Federation, and the members of the executive committee also have been elected. On the sidelines of the meetings, the ASE participated in the celebration that was held by the Istanbul Stock Exchange on the occasion of its 25th anniversary.

- The ASE also participated in the bilateral exchange program organized by the FEAS, which aims at exchanging experiences between the federation member exchanges. A delegation from the ASE visited the Istanbul Stock Exchange (ISE) and was introduced to the ISE operations and its departments
- As a part of the efforts to enhance the bilateral cooperation between the ASE and Athens Stock Exchange, a delegation from the ASE visited Athens Stock Exchange. During the visit, they were briefed on the trading system, the legislative and technological systems of the Exchange. They were also introduced to the accomplishments of their departments.

INDEPENDENT AUDITOR'S REPORT

01 11 504

To the Members of
Amman Stock Exchange
Amman - The Hashemite Kingdom of Jordan

Report on the Financial Statements

We have audited the accompanying Financial Statements of the Amman Stock Exchange which comprise the Financial Position as at December 31,2010 and the Statement of Revenues and Expenses, Statement of Changes in General Reserve and Statement of Cash Flow for the year then ended. And a summary of significant accounting policies and other explanatory notes .

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these Financial Statements in accordance with the International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of Financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances .

Auditor's Responsibility

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Financial Statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including assessing the risks of material misstatement of the Financial Statements, whether due to fraud or error; In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the Financial Statement .

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion .

Opinion

In our opinion, the Financial Statements present fairly, in all material respects the Financial Position of the Amman Stock Exchange as of December 31, 2010 and of its financial performance and its Cash Flows for the year then ended in accordance with the International Financial Reporting Standards .

As disclosed in note (8) in financial statements the fixed assets consist of land and buildings with a book value JD 2,781,307 as of Dec 31, 2010 were not registered under the name of Amman Stock Exchange.

As disclosed in note (15) to the financial statements, the Amman Stock Exchange is a defendant in law suit alleging the failure to apply the procedures for transferring shares, . These actions are still in progress, the ultimate outcome of the litigation can not presently be determined . Accordingly , no provision for any liability that may result upon adjudication has been made in the accompanying financial statements .

Based on the above we recommend the General Assembly to approve the accompanying Financial Statements .

The Accompanying Notes Form an Integral Part of This Statement
AUDITED FINANCIAL STATEMENTS

1- Establishing the Stock Market and its Activities

Amman Stock Exchange was Established according to Temporary Securities Law No. (23) for 1997. The stock exchange shall have a legal personality with financial and administrative autonomy. As such, it may acquire and dispose of movable and immovable property to achieve its objectives, carry out all legal acts, enter into contracts and shall have the right to sue and be sued and to authorize any attorney to act on its behalf in legal proceedings.

2- Significant Accounting Policies

A. Basis of preparation

The financial statements have been prepared in accordance with International Reporting Standards (IFRS). They have been prepared under the historical cost convention except that financial assets and liabilities are carried at fair value.

B. Estimations

The preparation of the financial statements require management to make estimates and assumptions that affect the reported amount of financial assets and liabilities and disclosures of contingent liabilities. These estimates and assumptions also affect revenues and expenses and the resultant provisions and in particular, considerable judgment by management is required in the estimation of the amount and timing of future cash flows. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty and actual results may differ resulting in future changes in such provisions.

C. Cash and cash equivalent

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less.

D. Offsettings

Offsetting between financial assets and financial liabilities, and presenting the net amount in the financial statements occurs when the obligatory legal rights are available, and when they are settled based in the offsetting, or upon the accrual of the assets and liabilities at the same time.

E. Provisions

Declaration of provisions occurs when the company has a legal or actual liabilities for a previous incident, and when the payment of the liabilities is probable and when the value is measurable in a manner that can be depended upon.

F. Fixed Assets and Depreciation

Fixed assets are recorded at cost and depreciated over its estimated useful lives using the straight line method at annual rates varying from 2.5-25 percent .

G. Other assets

Other assets are recorded at cost and Amortization over 4 years using the straight line method at annual rates varying 25% .

H. Provision of Remuneration

Provision of remuneration is calculated in accordance to the internal system of Amman Stock Exchange .

I. Revenue

The commissions of circulations will be occur when the circulation are finish .

5- Advance For Jordan National Financial Building

Pursuant to the Council of Ministers' resolution taken during their meeting which was held on November 18, 2005, a tenders committee for the Jordan National Financial Center project had been formed. 65% of the project is owned by the Amman Stock Exchange and 35% is owned by the Securities Depository Center according to the resolution number 6/2/2006 taken by the Capital Market Building Committee .

The financial procedures of the project were outlined pursuant to the resolution of the Board of Directors taken in their meeting which was held on 30/8/2006, and the amount will be settled when the project is finished.

6- Loan for Jordan Securities Commission

The Jordan Securities Commission was granted an advance of JD 1,653,366 for the purpose of purchasing the piece of land number (196) and basin number (8) of Amman City lands, in order to build the Jordan National Financial Center. The settlement of this amount will take place after the transfer of the land's ownership to the Amman Stock Exchange and the Securities Depository Center.
