Chairman's Statement

Honorable members of the General Assembly of Amman Stock Exchange

It is my pleasure to welcome all the members and wish you a happy and prosperous year. We are used to hold our annual meeting at this time of the year in order to discuss issues of concern to us and present to you the milestones and projects delivered in 2011. In this meeting, we will share our future visions and aspirations with you as well as listening to your ideas and feedback and suggestions that will enlighten our way to achieve the objectives of our institution.

Dear Members of Amman Stock Exchange,

Despite the repercussions of the imbalances that the world and the Arab region witnessed last year, Amman Stock Exchange (ASE) has resumed its efforts to achieve further goals in order to reach an advanced level on the regional and international markets. The ASE attained new accomplishments on the legislative and technical levels, in the domains of disclosure, information dissemination, raising awareness, and spreading the culture of investment.

legislative Development

On the legislative level, the ASE introduced in the past year, some amendments to the legislations and regulations of the ASE. It amended the Listing Securities Directives to ensure not suspending the companies that are wishing to reduce their capitals by purchasing shares issued by them from the market. Moreover, trading with the stocks of companies that wish to merge with other companies would be suspended once the decision of the Minister of Trade and Industry approving the merger has been issued. These amendments aim protecting the shareholders' rights and keeping the company's stocks available for trading until the required approvals have been granted, on the other hand, giving them the opportunity to access all the information and data related to the merger decision; which helps them to build their investment decision before the merger procedures take place.

Moreover, the directives were amended to allow delisting the shares of companies subject to mandatory liquidation after a court sentence. This applies to companies whose general assemblies approval is issued for voluntary liquidation. It also applies to companies that stay suspended from trading for more than two years. This measure is meant to keep the listing only for the companies that are actually traded on the market.

Rescheduling Trading Hours

In 2011, the schedule of trading hours was adjusted for all the traded securities. Thus, an extra time was made available before the trading commences in order to contact the listed public shareholding companies and to disclose all required information. Sufficient time is also available every day in the morning to make all the technical and operational procedures to get prepared for the daily trading session and conducting the necessary communication and collaboration with the capital market institutions and other stakeholders.

Sophisticated Infrastructure

On the technical level, the ASE has developed its infrastructure and increased its investment in it. It purchased a number of servers and external storage units, and installed a supporting hi-fi internet line. Moreover, the internal information systems of the ASE have been developed as well.

Disclosure and Information Dissemination

The ASE has persisted in its approach to enhance and enforce the disclosure and transparency principles. In 2011, the ASE signed a set of agreements with some institutions and data providers for the purpose of information dissemination.

Accordingly, a live transmission of ASE data takes place through the market watch screens, and GL screens. The ticker tape is placed on the websites and satellite televised channels to show prices of securities traded at the ASE. Moreover, the ASE persisted in monitoring the listed companies and urging them to disclose their substantial information and financial data in a timely manner, while penalizing companies that did not follow the regulations.

**Arab,
Regional, and
International
Cooperation**

The ASE has always been keen on enhancing the cooperation links and relations with the Arab and international stock exchanges. It has supported its presence both on the regional and international map with a special focus on its distinguished role in the international federations and organizations. Thus, it effectively participated in several conferences and other events taking place regionally, internationally, and in the Arab World.

All of these achievements would not have been possible without a consolidated effort by all of those operating on the Jordan Capital Market Institutions, and the cooperation of all the stakeholders of the investment process. I especially thank the Jordan Securities Commission for their continuous support and back up. I would like to commend the efforts of all the employees of Amman Stock Exchange and thank them for their loyalty and strong efforts during the past and previous years.

Finally, thank you for responding to our invitation to attend this meeting. Wishing further advancement and prosperity for our beloved Jordan under the leadership of His Majesty King Abdullah II bin Al-Hussein.

Mohammed S. Hourani
Chairman of the Board

The Treasury Bills issued counted for JD1764.0 million. Treasury bonds issued in 2011 counted for JD2346.9 million. In 2011, the Water Authority issued bonds for JD233.5 million. The Public Corporation for Housing and Urban Development issued bills for JD30 million, and bonds for JD45 million. Public Shareholding Companies' Bonds were issued for an amount of JD38 million. The National Electricity Company issued bonds for JD392.9 million and bills for JD100 million in 2011. As for the primary issues of shares, a limited liability company was upgraded to a public shareholding company in 2011 with a capital of JD55 million. Other 8 existing companies raised their capitals for JD64.8 million shares for an amount of JD81.7 million.

Fifth: Membership of the Amman Stock Exchange

In 2011, the membership of the Industrial Development Bank and the Universal House Brokerage Company were revoked from ASE membership because the Jordan Securities Commission had transferred their licenses to Misc Financial Brokerage Corporation and the Global Investment House-Jordan company, respectively. Both companies were granted membership of the ASE. Thus, the number of members of the ASE counted for 69 as at the end of 2011. The operating brokerage firms were 60 firms by the end of 2011.

Sixth: Dispute resolution

ASE received applications for dispute resolution between the members and their clients according to the Dispute Resolution Directives at ASE for 2004. These counted for 7 applications in 2011. The advantage of Dispute Resolution at ASE according to the relevant directives is the prompt resolution of the issues set for arbitration

ASE Achievements in 2011

First: Legislative Updates

Furthering the ASE's approach to review valid legislations, some amendments were introduced in 2011 to the rules and regulations of Amman Stock Exchange. Some articles in the Listing Securities Directives were introduced as follows:

- 1- Companies wishing to decrease their capitals by selling their shares on the market will still be permitted to trade.
- 2- Suspending the trading of the shares of companies wishing to merge as from the date of issuing the merger approval resolution by the Minister of Industry and Trade instead of the date of informing the Stock Exchange of the decisions by the board of directors approving the merger. This amendment is meant to protect holders of securities by keeping the company's shares valid for trading until obtaining the proper approvals by the relevant agencies. In addition, investors will have all the information and data relevant to the decision of merger to help them make informed decisions before starting the actual merger process.
- 3- Delisting the shares of companies subjected to mandatory liquidation upon a court sentence. This applies to companies whose general assemblies opt for voluntary liquidation. It also applies to companies that stay suspended from trading for more than two years. This measure is meant to keep the listing of companies that are actually traded on the market only.

Second: Technical Developments

1- Installing a backup internet line in the Housing Bank Complex

The ASE installed an internet line at the Housing Bank Complex. It is a backup line of 50Mbps. This makes it possible to furnish a backup site for the electronic services of the ASE at the Housing Bank Complex. All of these services can be operated from the Complex in case of any technical failures in the main site or an interruption in the main internet line. In fact, the backup site at the Housing Bank Complex fully serves as an alternative site for the trading system in addition to the brokers' archiving system (EZ Publish) and some of the major services required for the ASE systems including the Management Information System (MIS), session monitoring system, the internet trading system, and the information dissemination system.

2- Upgrading the Electronic Infrastructure

The ASE upgraded its electronic infrastructure through purchasing 10 new servers, two external storage units, and an advanced technology called “VMWare” which is used to make all the major and important services accessible through the new servers.

A new Cisco Router 7600 was purchased and the old Router at the main building was upgraded to fit with the new internet line. ASE purchased also an IPS to detect attempts to hack the network as well as several other problems with the brokerage firms found in the ASE’s Network.

In addition, the major internet line which ends at ASE’s Premises was replaced with a new line using the MPLS modern technology. This is aimed at activating the backup internet line ending at the Housing Bank Complex. Thus, it is possible to activate the e-services of the Stock Exchange depending on the backup internet line in case the major line breaks down.

3- Internet Trading Service

The ASE received more applications from brokerage firms wishing to start delivering Internet Trading Service to their clients. The applications were screened to ensure their fulfillment of the requirements of Internet Trading regulations; put by the ASE and the Jordan Securities Commission. Software packages to be used by these firms in order to deliver the Internet Trading Service are subjected to testing as well. Shares traded through this service counted for 17,739,720 shares in 2011; with a value of JD 8,698,125 through 15,180 contracts.

4- Auditing the Accounting Systems Used by the Brokerage-Firms

Amman Stock Exchange audits companies providing the financial brokerage companies with electronic accounting systems in order to ensure their compliance with the standards approved by the Jordan Securities Commission.

5- Program of the Brokers’ Monitors

This program stores data of the inquiry and trading monitors of each broker. It also saves the details of any insertion, deletion, suspension, or activation function for any of these monitors. Detailed reports of those functions can be displayed for a certain period of time.

6- Introducing a New Electronic Archiving System for the Post Office of Amman Stock Exchange

This new system was introduced to the functions of the post office of ASE. It is a user friendly system with specialty functions including document downloading and classification, with an easy and prompt search and retrieval of documents kept in the system.

7- Management Information System (MIS)

The ASE enhanced its MIS by introducing and amending several monitors and reports in the System in response to requests by several departments at the ASE, most importantly, the guide of Broker firms providing internet trading service. Data related to internet trading is entered into the system and the software analyzes the internet trading activities executed by these firms and issues relevant reports.

Third: Rescheduling Trading Hours

The ASE rescheduled the trading hours for all the traded securities. As from November 1st, 2011, the pre-opening session starts at 10:00 am instead of 9:30 am. This rescheduling is aimed at providing some extra time during the morning before the trading starts, in order to contact the listed public companies in order to provide the required disclosures including the results of general assembly meetings. Moreover, sufficient time is made available every morning to take all the technical and operational procedures in preparation for the daily trading session. Contacts are made with the capital market institutions and other relevant departments with regard to the procedures of public shareholding companies and brokerage firms.

Fourth: Disclosure and Data Dissemination

In 2011, the ASE implemented the following in this domain:

- Signing (4) data dissemination agreements with data vendors through the Market Watch Screens; agreements in this respect total (34) now.
- Signing one agreement to disseminate information using GL screens; agreements in this respect total (9) at present.
- Signing (4) Ticker Tape agreements to disseminate live stock prices through the ASE's ticker tape on other websites. Agreements in this respect total (96) now.

Fifth: Awareness and Media

- In line with the ASE's policy of spreading the investment culture and raising awareness among citizens and those who are interested in securities trading, the ASE, in cooperation with the Business Administration Faculty at Al-Isra' university, held an academic day to spread the investment culture and raise awareness among students.

The ASE delivered a lecture entitled "Recent Developments at the ASE and the Impact of the Financial Crisis" in the presence of the Dean of Business Administration Faculty and a number of professors and students. The lecture concentrated on the technical and legislative developments at the ASE and the basic topics relevant to the Jordanian capital market and trading in securities. Moreover it discussed the Global Financial Crisis and its effects on the global economy in general and the ASE in particular. Furthermore the ASE presented a live trading session and explained the most important features of the Electronic Trading System applied at the ASE.

On this occasion the ASE held a booth, where a live trading session was displayed and all students' questions were answered. It is worth mentioning that this event witnessed a remarkable attendance from students and others.

- ASE Senior Management held a meeting with the Management of the Applied Science University. They discussed methods to enhance cooperation between ASE and the University. In this regard, and in cooperation with the Faculty of Economics and Administrative Sciences and with the presence of some professors and students, the ASE delivered a lecture entitled, "The Latest Developments at ASE". Special focus was given to the latest developments at ASE and the basic topics related to the Jordanian Capital Market and the trading of securities.

Sixth: Local, Arab and International Presence

On the local Level:

- The ASE participated in a conference about strategic options for financing development in Jordan and how to take advantage of international capital to promote the diversity of funding which was organized by Euromoney. On the same event the ASE participated in a panel discussion entitled "Corporate Finance" and said that the Initial Public Offerings (IPOs) at the primary market have been affected in Jordan in recent years because of the Global Financial Crisis and the loss of financial markets attractiveness. It was also stressed that Jordanian companies are advised to use more advanced and sophisticated tools for financing, instead of the conventional ones.

- The ASE also participated in the Third Corporate Governance (CG) and Corporate Social Responsibility (CSR) Forum which was held by the International Finance Corporation in cooperation with “Schema” under the title of “Achieving Sustainability”. In a panel discussion on corporate governance in Jordan, the ASE revealed the importance of good corporate governance for listed companies, and displayed the most important lessons learned from the first CG code adoption in Jordan.

Delegations Received

ASE received several official and student delegations at its premises from local, Arab and international agencies including the following:

- A delegation from Casa Blanca Stock Exchange, a delegation from the Iranian Regulatory Commission, and a delegation from Muscat Securities Market. The delegations were briefed on the major recent developments at the Jordanian Capital Market during the past years in addition to the internet trading system used at the ASE and its facilities.

- The ASE received an economic delegation from the French Embassy including the Advisor of the Ministry of Economic Affairs- Chief of the Economic Department for the Middle East in addition to the Economic Attaché at the French Embassy.

- The ASE received a delegation from the Commission of the European Bank for Reconstruction and Development within the visit paid to Jordan to discuss potential support to the developmental projects in Jordan as well as enhancing the private sector role in the developmental process. This visit came in response to Jordan's interest in applying for membership in the European Bank for Reconstruction and Development as well as benefiting from the funding and services delivered by the Bank based on the Bank's decision to expand its scope of work in the countries of the region.

- The ASE received the Senior Economist of the HSBC Bank who delivered a lecture in the presence of the financial brokers, and representatives of the Capital Market institutions on the impact of the Global Financial Crisis on the financial markets in the region.

- At its premises, the ASE received student delegations from the local and Arab universities. It received a military delegation from the Jordanian Royal National Defense College, student delegations from Tafila Technological University, Al-Isra' University, Mu'ta University, Yarmouk University, and Al-Quds University. It also received delegations from Amman Training College, Al-Asriya Schools, and Rayhana bint Zeid Secondary School. The visiting delegations were briefed on the major developments at the Jordanian Capital Market in terms of the legislative and technical issues, in addition to the operations of the financial services firms.

On the Arab Level, the ASE participated in:

The ASE participated in the Financial Access and Stability Conference which was organized by the World Bank in collaboration with the Arab Monetary Fund and the Union of Arab Banks and the Central Bank of Lebanon where the ASE chaired a session entitled “Non Banking Financial Institutions and Capital Market”. During the conference, a number of important issues were discussed. At the end of the conference a Q&A session was held.

On the International Level:

- The ASE participated in the annual conference for the Financial Information services Division (FISD) emanating from the Software & Information Industry Association (SIIA). During the Conference, issues regarding Information dissemination in the Middle East and North Africa were discussed. The ASE participated as a speaker in one of the discussion sessions titled “MENA: Update on the Landscape” Where it addressed the Middle East and North Africa Stock Exchanges role towards the development of the information dissemination industry to cope with the global policies pursued in this regard, as well as the most important challenges and the role which the major data providers played in the region.

On Slide lines of the conference, ASE met representatives of the participating entities from the international companies specialized in the field of information dissemination and investment firms to present the ASE as a model for the investment environment in the region by reviewing the benefits of the investment climate in Jordan as well as the most important achievements of the ASE in the securities industry.

- The ASE participated in the Fifth Meeting of the “Organization of Islamic Conference (OIC) Member States Stock Exchanges Forum”. During the meeting the participants agreed that Standards and Poor’s Company (S&P) will continue its work on the composition and calculation of two Islamic indices, one index includes companies from all member exchanges of the Organization, and the other is an Islamic investment index which comprises the companies that comply with the international standards of S&P. S&P will work on marketing this index which will be launched at the beginning of 2012. The meeting also discussed the means of developing Sukuk bonds and other Islamic financial instruments in cooperation with the International Islamic Financial Market and the Islamic Financial Services Board. It’s worth mentioning that the Organization is the second largest inter-governmental organization after the United Nations which has membership of 57 states spread over four continents.

**To the Members of
Amman Stock Exchange
Amman - The Hashemite Kingdom of Jordan**

Report on the Financial Statements

We have audited the accompanying Financial Statements of the Amman Stock Exchange which comprise the Financial Position as at December 31,2011 and the Statement of Revenues and Expenses, Statement of Changes in General Reserve and Statement of Cash Flow for the year then ended, and a summary of significant accounting policies and other explanatory notes .

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Financial Statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including assessing the risks of material misstatement of the Financial Statements, whether due to fraud or error; In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the Financial Statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Financial Statements present fairly, in all material respects the Financial Position of the Amman Stock Exchange as of December 31, 2011 and of its financial performance and its Cash Flows for the year then ended in accordance with the International Financial Reporting Standards.

Emphasis of a matter

As disclosed in note (8) to the financial statements, the fixed assets include land and buildings with a book value JD 2,709,562 as of Dec 31, 2010 which were not registered under the name of Amman Stock Exchange.

As disclosed in note (13) to the financial statements, the Amman Stock Exchange considered the service of employees in Amman Financial Market as an actual service for the purpose of calculation of the end of service provision.

As disclosed in note (17) to the financial statements, the Amman Stock Exchange is a defendant in law suit alleging the failure to apply the procedures for transferring shares. These actions are still in progress.

The ultimate outcome of the litigation can not presently be determined.

Accordingly, no provision for any liability that may result upon adjudication has been made in the accompanying financial statements.

The Amman Stock Exchange maintains proper accounting records.

Based on the above we recommend the General Assembly to approve the accompanying Financial Statements .

1-Establishing the Stock Market and its Activities

Amman Stock Exchange was Established according to Temporary Securities Law No. (23) for 1997. The stock exchange shall have a legal personality with financial and administrative autonomy. As such, it may acquire and dispose of movable and immovable property to achieve its objectives, carry out all legal acts, enter into contracts and shall have the right to sue and be sued and to authorize any attorney to act on its behalf in legal proceedings.

2-Significant Accounting Policies

a-Basis of preparation

The financial statements have been prepared in accordance with International Reporting Standards (IFRS). They have been prepared under the historical cost convention except that financial assets and liabilities are carried at fair value.

b-Estimations

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amount of financial assets and liabilities and disclosures of contingent liabilities . These estimates and assumptions also affect revenues and expenses and the resultant provisions and in particular , considerable judgment by management is required in the estimation of the amount and timing of future cash flows . Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty and actual results may differ resulting in future changes in such provisions.

c-Cash and cash equivalent

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less.

d-Offsettings

Offsetting between financial assets and financial liabilities, and presenting the net amount in the financial statements occurs when the obligatory legal rights are available , and when they are settled based in the offsetting, or upon the accrual of the assets and liabilities at the same time .
